### Comparative Aspects of Age-Induced Plasticity in the Adult Nervous System

| | | |
|---|---|---|
| BERTRAM PERETZ | 1 | Introductory remarks: Age-induced plasticity in nervous systems of diverse species |
| CALEB E. FINCH | 7 | Mechanisms in senescence: Some thoughts in April 1990 |
| JAMES W. TRUMAN | 17 | Insect systems for the study of programmed neuronal death |
| MARK P. MATTSON | 29 | Calcium as sculptor and destroyer of neural circuitry |
| H.L. ATWOOD | 51 | Age-dependent alterations of synaptic performance and plasticity in crustacean motor systems |
| C.K. GOVIND | 63 | Age-related remodeling of lobster neuromuscular terminals |
| NORMAN ROBBINS | 75 | Compensatory plasticity of aging at the neuromuscular junction |
| BERTRAM PERETZ and MALATHI SRIVATSAN | 83 | Differences in aging in two neural pathways: Proposed explanations from the nervous system of *Aplysia* |
| ARTHUR P. ARNOLD | 99 | Hormonally-induced alterations in synaptic organization in the adult nervous system |
| PAUL B. FAREL, PETER G.R. ST. WECKER and SIBYL E. WRAY | 111 | Neuron addition in the postmetamorphic frog |
| EVA FIFKOVA and MARISELA MORALES | 125 | Aging and the neurocytoskeleton |
| | 137 | Letters to the editor |
| | 141 | 1991 American Federation for Aging Research (AFAR) grant recipients announced |
| | 145 | Forthcoming articles |

## Number 2

| | | |
|---|---|---|
| JOHN P. PHELAN | 147 | Review article: Genetic variability and rodent models of human aging |
| RON KOHEN, OREN TIROSH and KATARINA KOPOLOVICH | 161 | The reductive capacity index of saliva obtained from donors of various ages |

| | | |
|---|---|---|
| PHILIP J. SCARPACE, DAVID T. LOWENTHAL and NIHAL TÜMER | 169 | Influence of exercise and age on myocardial β-adrenergic receptor properties |
| LISA M. LARKIN, BARBARA A. HORWITZ and ROGER B. MCDONALD | 179 | Effect of cold on serum substrate and glycogen concentration in young and old Fischer 344 rats |
| BRIAN J. MERRY, SHEENA E.M. LEWIS and DAVID F. GOLDSPINK | 191 | The influence of age and chronic restricted feeding on protein synthesis in the small intestine of the rat |
| M.-L. RILEY-ROBERTS, R.J. TURNER, P.M. EVANS and B.J. MERRY | 201 | Lymphoproliferative responses in diet-restricted and aging Sprague-Dawley rats |
| ATSUSHI MIYAMOTO, TOSHIO MAKI, MARC R. BLACKMAN and GEORGE S. ROTH | 211 | Age-related changes in the mechanisms of LHRH-stimulated LH release from pituitary cells in vitro |
| RAYMOND E. GALINSKY, BRADFORD W. MANNING, ROBERT E. KIMURA and MICHAEL R. FRANKLIN | 221 | Changes in conjugative enzyme activity and acetaminophen metabolism in young and senescent male F-344 rats following prolonged exposure to buthionine sulfoximine |
| RAYMOND CHICHERY and MARIE-PAULE CHICHERY | 233 | Learning performances and aging in cuttlefish *(Sepia officinalis)* |
| MICHAEL R. ROSE, LINH N. VU, SUNG U. PARK and JOSEPH L. GRAVES, JR. | 241 | Selection on stress resistance increases longevity in *Drosophila melanogaster* |
| | 251 | Book reviews |
| | 257 | Forthcoming articles |
| | 259 | Announcement |

## Number 3

| | | |
|---|---|---|
| GEORGE T. BAKER, III and W. ANDREW ACHENBAUM | 261 | Point of view: A historical perspective of research on the biology of aging from Nathan W. Shock |
| DAVID DANON, NANCY B. BOLOGNA and SLAVA GAVENDO | 275 | Memory performance of young and old subjects related to their erythrocyte characteristics |
| MICHAEL F. ETHIER, MAUREEN MEDEIROS, FRED D. ROMANO and JAMES G. DOBSON, JR. | 287 | Mechanism of enhanced cyclic AMP stimulation by isoproterenol in aged human fibroblasts |
| NIHAL TUMER, MARY L. MORTIMER and JAY ROBERTS | 301 | Gender differences in the effect of age on adrenergic neurotransmission in the heart |
| HIROSHI ITOH and RUBEN D. BUÑAG | 309 | Aging reduces cardiovascular and sympathetic responses to NTS injections of serotonin in rats |
| THOMAS Y. MA, DANIEL HOLLANDER, VIOLETA DADUFALZA and PAVEL KRUGLIAK | 321 | Effect of aging and caloric restriction on intestinal permeability |

ANTTI HERVONEN, PIA JAATINEN, MAIJA SARVIHARJU and KALERVO KIIANMAA — 335 Interaction of aging and lifelong ethanol ingestion on ethanol-related behaviors and longevity

BRADLEY S. BENDER and ELAINE TALLMAN — 347 The heterogeneity of the age-related decline in immune response: Impairment in delayed-type hypersensitivity and cytotoxic T-lymphocyte activity occur independently

355 Announcement

357 Forthcoming articles

# Number 4

## Human Diploid Fibroblast-Like Cells as a Model System for the Study of Senescence

360 The Samuel Roberts Noble Foundation

R.T. DELL'ORCO — 361 Introduction to the Conference on Human Diploid Fibroblast-Like Cells as a Model System for the Study of Senescence: Current status—1991

LEONARD HAYFLICK — 363 Aging, longevity, and immortality in vitro

A. MACIEIRA-COELHO — 369 Genome reorganization through division: Implications for aging of the mammalian organism

CALVIN B. HARLEY, HOMAYOUN VAZIRI, CHRISTOPHER M. COUNTER and RICHARD C. ALLSOPP — 375 The telomere hypothesis of cellular aging

WOODRING E. WRIGHT and JERRY W. SHAY — 383 The two-stage mechanism controlling cellular senescence and immortalization

THOMAS H. NORWOOD, WILLIAM R. PENDERGRASS, ANTHONY SAULEWICZ and FUMIO HANAOKA — 391 A somatic genetic approach to the analysis of senescence in human diploid fibroblasts in vitro: From heterokaryons to molecules

JUDITH CAMPISI — 397 Oncogenes, protooncogenes, and tumor suppressor genes: A hitchhiker's guide to senescence?

PAUL D. PHILLIPS and ROBERT J. PIGNOLO — 403 Altered expression of cell cycle dependent genes in senescent WI-38 cells

JAMES R. SMITH — 409 Inhibitors of DNA synthesis derived from senescent human diploid fibroblasts

J. KEITH MCCLUNG, ROBERT L. KING, LISA S. WALKER, DAVID B. DANNER, MARK J. NUELL, CHARLES A. STEWART and ROBERT T. DELL'ORCO — 413 Expression of prohibitin, an antiproliferative protein

EUGENIA WANG — 419 Are all nonproliferating cells similar?

ALBERT J.T. MILLIS, HEATHER M. MCCUE, SANJAY KUMAR and CORRADO BAGLIONI — 425 Metalloproteinase and TIMP-1 gene expression during replicative senescence

| | | |
|---|---|---|
| VINCENT J. CRISTOFALO, ROBERT J. PIGNOLO, FELICIA L. CIANCIARULO, BYRON R. DIPAOLO and MITCH O. ROTENBERG | 429 | Changes in gene expression during senescence in culture |
| RAY THWEATT, SHUNICHI MURANO, ROBERT D. FLEISCHMANN and SAMUEL GOLDSTEIN | 433 | Isolation and characterization of gene sequences overexpressed in Werner syndrome fibroblasts during premature replicative senescence |
| OLIVIA M. PEREIRA-SMITH | 441 | Molecular genetic approaches to the study of cellular aging |
| RAYMOND J. MONNAT, JR. | 447 | Werner syndrome: Molecular genetics and mechanistic hypotheses |
| GEORGE M. MARTIN | 455 | Clonal attenuation and cell senescence: The next 30 years |
| | 461 | Book review |
| | 463 | Announcements |
| | 465 | Forthcoming articles |

# Numbers 5/6

## Proceedings of the Second International Conference on Longevity and Aging: Environmental and Nutritional Influences on Aging and Cancer

| | | |
|---|---|---|
| GEORGE T. BAKER, III and GARY M. WILLIAMS | 467 | Preface |
| GARY M. WILLIAMS and GEORGE T. BAKER, III | 469 | The potential relationships between aging and cancer |
| JERRY W. SHAY, MICHAEL D. WEST and WOODRING E. WRIGHT | 477 | Re-expression of senescent markers in deinduced reversibly immortalized cells |
| MARGARET B. PENNO and ANTONIO DE MAIO | 493 | A murine model for evaluating metastatic potential: Characterization of a 90–110-kDa metastasis-binding protein |
| EUGENIA WANG | 503 | Characterization of the absence of an unique DNA-binding protein in senescent but not in their young growing and nongrowing counterparts provides the means to mark the final stage of the cellular aging process |
| O.M. PEREIRA-SMITH and Y. NING | 519 | Molecular genetic studies of cellular senescence |
| TIMOTHY P. FLEMING, TOSHIMITSU MATSUI and STUART A. AARONSON | 523 | Platelet-derived growth factor (PDGF) receptor activation in cell transformation and human malignancy |
| KURT RANDERATH, DONGHUI LI, RAGHU NATH and ERIKA RANDERATH | 533 | Exogenous and endogenous DNA modifications as monitored by $^{32}P$-postlabeling: Relationships to cancer and aging |
| WILLIAM B. ERSHLER | 551 | Explanations for reduced tumor proliferative capacity with age |
| ANTONINO PASSANITI, SCOTT H. ADLER and GEORGE R. MARTIN | 559 | New models to define factors determining the growth and spread of human prostate cancer |
| RONALD W. HART and ANGELO TURTURRO | 567 | Overview of cancer and aging: A mechanistic perspective |
| RICHARD WEINDRUCH | 575 | Effect of caloric restriction on age-associated cancers |
| ANGELO TURTURRO and RONALD HART | 583 | Dietary alteration in the rates of cancer and aging |

| | | |
|---|---|---|
| V. SRIVASTAVA, R. TILLEY, S. MILLER, R. HART and D. BUSBEE | 593 | Effects of aging and dietary restriction on DNA polymerases: Gene expression, enzyme fidelity, and DNA excision repair |
| JOHN P. RICHIE, JR. | 615 | The role of glutathione in aging and cancer |
| ROBERT G. MCVICKER | 627 | Invited editorial: Food industry perspectives of the mature market |
| | 633 | Forthcoming articles |
| | 635 | Acknowledgments |
| | 637 | Announcements |
| | I | Volume 27 Contents, Author and Key Word Indexes |
